SUPERIOR DESIGN

YOUR ULTIMATE PACKAGING PROVIDER

Packaging can give your brand a powerful first impression, so why settle for anything less than the best? We provide design and state-of-the-art digital printing as well as special finishes such as soft touch, Spot UV, and foils. We also produce other printed marketing materials, including point of purchase [POP] displays, single- or multi-use packaging, marketing materials, and trade show collateral.

CHILD RESISTANT PACKAGING

Our child-resistant design has been tested in accordance with CFR Title 16, Part 1700 to reduce the risk of children accidentally ingesting cannabis product. Our design incorporates “key access” and shake resistance.

RECYCLEABLE AND BIODEGRADABLE MATERIALS & SUSTAINABLY PRODUCED

Superior Cannibrands is committed to using sustainable materials and manufacturing practices. We purchase materials and supplies from environmentally-conscious sources and work to improve our impact on the planet. With our paper-based designs and local production, we can support both our lower carbon footprint and non-ocean waste objectives.

FLEXIBLE OPTIONS

Superior Cannibrands Patent pending designs and multiple style/size options will help you remain compliant and flexible to market demands. By leveraging state of the art digital printing you can incorporate the variance of sku demand in every print run. In addition, we boast expeditious lead times for custom packaging and can turn around samples in a very short timeframe.
